EXECUTIVE SUMMARY

Patenting strategies

Regulatory and legal landscape

Pomegranate extracts patent strategies

Conclusions

Patenting strategies

Summary

What is this report about?

Introduction

What is a patent?

Requirement for a therapeutic patent

Legal patent frameworks

United States

European

Patent Cooperation Treaty

Patenting costs

EPO patenting fees

WIPO patenting fees

USPTO fees

Types of patent claims for natural nutraceuticals versus NCEs

Health claims of natural nutraceuticals often arise from folklore

Process patenting strategies for natural nutraceuticals versus drugs

Formulation patenting strategies for nutraceutical versus drugs

Patent term extensions

Differences in NCE and natural nutraceutical patenting

New chemical entities

Natural nutraceuticals

Future patenting strategies

Regulatory and legal landscape

Summary

Introduction

EU regulatory landscape

Article 13 claims

Article 13(5) claims

Article 14 claims

US regulatory landscape and class actions

Japanese nutraceutical regulatory landscape

The future

Pomegranate extracts patenting strategies

Summary

Introduction

POM Wonderful LLC

POM Wonderful's patenting strategy

FDA/FTC Warning Letters

PoliNat (Polifenoles Naturales S. L.)

PoliNat's patenting strategy

Verdure Sciences

Verdure Sciences' patenting strategy

Amazentis SA

Amazentis' patenting

Health Love Co Ltd

Health-Love patent strategy

Probelte Pharma SA
 Probelte Pharma's patenting strategy
Sigma-Tau Industrie Farmaceutische Riunite S. P. A.
 Sigma-tau Industrie Farmaceutiche Riunite pomegranate patenting
Johnson & Johnson Consumer Companies, Inc.
4Life
 4Life patenting strategy
Rimonest Ltd and Punisyn Pharmaceuticals
 Rimonest's patent portfolio
Inventor – Salvatore Tirrito patenting

Future outlook

Summary
Introduction
Increased patent activity
 Protecting assets
Licensing strategies
Emerging markets
New technologies
 Delivery systems
 Nutrigenomics
Potential for associated pharmaceutical development

Appendix

Scope
Methodology
 Secondary research
Glossary/Abbreviations
Bibliography/References
 Regulatory and legal landscape chapter
 Pomegranate extracts patenting strategies chapter

TABLES

Table: Nutraceuticals reviewed under article13(5) EC Regulation
Table: Nutraceuticals reviewed under article13(5), criteria for decisions – Part 1
Table: Nutraceuticals reviewed under article13(5), criteria for decisions – Part 2
Table: Nutraceuticals reviewed under Article 14 EC Regulation
Table: Nutraceuticals reviewed under Article 14 disease risk reduction and child development/health – Part 1
Table: Nutraceuticals reviewed under Article 14 disease risk reduction and child development/health – Part 2
Table: FDA Warning Letters sent to nutraceutical companies, Jan-Mar 2011
Table: FDA Warning Letters sent to nutraceutical companies, Oct-Dec 2010
Table: FDA Warning Letters sent to nutraceutical companies, July-Oct 2010
Table: Pomegranate products, compositions and active principles
Table: Range of pomegranate health claims and types of formulation patenting
Table: POM Wonderful pomegranate patenting strategy
Table: Summary of Pomegranate patent applications
Table: Summary of Pomegranate patenting strategies (continued)
