

Table of Contents

Executive summary

- The online advertising industry outlook
- The segments of the online advertising industry
- The emerging landscape of the online advertising industry
- Measuring the effectiveness of online advertising
- The mobile advertising industry outlook
- Emerging models

Chapter 1 Introduction

- What is this report about?
- Who is this report for?
- Methodology
- Definitions of online and mobile advertising
- Definition of online advertising
- Definition of mobile advertising
- The mobile advertising system

Chapter 2 The online advertising industry outlook

- Summary
- Global online advertising market size by value
- Geographic segmentation of the industry
- Elements of online advertising
- Global media consumption time breakdown
- Share of total advertising spend by medium
- Global internet subscribers and internet penetration (percent of population)

Chapter 3 The segments of the online advertising industry

- Summary
- Segments of online advertising
- Search advertising
- Search engine optimization (SEO)
- Classified advertising
- Display advertising (banner ads)
- Search advertising
- Global search market share
- Regional search market share
- Online advertising segmental revenues
- Drivers and resistors of online advertising
- Drivers
- Resistors
- Pricing models in online advertising
- Cost per mille (CPM)
- Performance
- Cost per click (CPC)
- Cost per action (CPA)
- Hybrid
- Trends in pricing models

Chapter 4 The emerging landscape of the online advertising industry

Summary

Google

Google's business model

AdWords

AdSense

Google's advertising revenues

Google's strategies

M&A deals strengthen core advertising business

Partnering with social networking sites to attract advertising dollars

Strategic initiatives to boost display advertising

New features are targeted at increasing users and ads

Yahoo

Yahoo's business model

Yahoo's advertising revenues

Yahoo's strategies

Outsourcing search to offset declining market share

Countering Google's challenge in core display business

M&A deals strengthen advertising business

Strategic initiatives are aimed at transforming the firm into a content company

Microsoft

Microsoft's business model

Microsoft's advertising revenues

Countering Google through a strategic partnership with Yahoo

Discontinuing cash back program in favor of social semantic search

AOL

AOL's business model

AOL's advertising revenues

AOL's strategies

Transforming from an internet service provider into a content provider

M&A deals power the transformation into online advertiser

Painful restructuring efforts are aimed at attracting ad dollars

Competitive positioning of key players

Key players' ad revenues

Average revenue per user (ARPU)

Performance of key players

Chapter 5 Measuring the effectiveness of online advertising

Summary

Web analytics

Google Analytics

Yahoo Web Analytics

Bing analytics

AOL analytics

E-commerce as a key performance indicator

Chapter 6 The mobile advertising industry outlook

Summary

Mobile advertising market size
Geographic segmentation of the industry
Segments of the mobile advertising industry
SMS advertising
Display advertising
Search advertising
Mobile advertising segmental revenues
Mobile apps
Drivers of mobile advertising
Rapidly increasing mobile penetration rates allow ads to reach a broader market
Increasing global mobile phone shipments result in wider reach
Rising global smartphone sales are resulting in a richer user experience
Rapid growth rate of mobile broadband subscriptions to boost ad revenues
Increasing 2G and 3G proliferation boosting the industry
Resistors
Small screen limits placement of number of ads
Lack of a standard mobile platform
Multiple player value chain
Connectivity is still a challenge
Resistance from ad companies
Key players
Apple's strategies
Launching iAd platform to boost mobile ad business
Acquisition of Quattro Wireless enables Apple to battle Google
iPhone Apps and iPad fuel growth
Google's strategies
Acquisition of AdMob and other strategic deals to strengthen market presence
Android drives mobile advertising business
Stepping into location-based advertising for better targeting
Apps lead the way
Differences between Apple and Google
Nokia's strategies
Teaming up with Yahoo to offset declining market share
Strategic deals spur growth
Research In Motion's strategies
Launching service platforms to boost apps business
Shifting focus to consumer segment to boost mobile ad sales
Competitive positioning of major OS platforms
Number of apps by OS platform
Global mobile OS platform market share
Global mobile advertising market shares
Global click-through rates
Performance of major OS platforms

Chapter 7 Emerging models

Summary

Emerging models in online and mobile advertising

Semantic advertising
Applying semantics to search
Semantic advertising on mobiles
Social networking advertising
Growing popularity of social networking sites
Social networking ad revenues
Facebook and social semantic search
Social networking on mobile
Location-based advertising
LBA on the mobile
Video advertising
Online video views
Online video ads
Video advertising on mobile
